

StarUML 3

2018-06-01

We are so glad to announce [StarUML V3](#) release. The new V3 changed underlying platform to [Electron](#). It brings a lot of advantages for new features, performance, stability and so forth.

The new V3 has many features that you can take advantage of:

- Multiple Windows
- Data Flow Diagram
- Auto Update
- Light and dark themes
- Copy diagram image to clipboard
- Code signing for executables and installers
- API enhancement
